

TALKING WITH YOUR TRANSPLANT TEAM

Your transplant team is the best source to help you get answers about your recovery. This document is meant to help you prepare for appointments.

This document can be printed and filled out by hand, or digitally filled out on your computer. Filling out this guide can help you organize your questions ahead of time and set you up for a helpful conversation.

Questions about my appointment:

Will I need blood work for this appointment?

Is there anything I need to prepare or bring with me?

Will this appointment be in-person or virtual?

Notes:

Appointment with: _____

Date and time of appointment: _____

Purpose of appointment: _____

What is LIVTENCITY?

LIVTENCITY is a prescription medicine used to treat cytomegalovirus (CMV) infection and disease in adults and children 12 years of age and older weighing at least 77 pounds (35 kg) who have received a transplant, when their infection or disease does not respond to treatment with the medicines ganciclovir, valganciclovir, cidofovir or foscarnet. It is not known if LIVTENCITY is safe and effective in children under 12 years of age.

IMPORTANT SAFETY INFORMATION

Before taking LIVTENCITY, tell your healthcare provider about all your medical conditions, including if you:

- are pregnant or plan to become pregnant. It is not known if LIVTENCITY will harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if LIVTENCITY passes into your breast milk. Talk to your healthcare provider about the best way to feed your baby during treatment with LIVTENCITY.

Please see additional safety information throughout, click for [Information for Patients](#), and discuss with your HCP.

Before you start your appointment

Let your transplant team know you have a certain number of questions so they can leave time to address your concerns thoroughly.

 **LIVTENCITY**[™]
(maribavir) tablets
200mg

Questions about cytomegalovirus (CMV):

How did I get CMV?

Will I always have CMV?

What will the risk be to my health?

What symptoms should I look for? When do I let you know?

Will I need any new tests? If so, what are they and how often will I need them?

I have been told that my CMV is **refractory**. What does this mean?

I have been told that my CMV is **resistant**. What does this mean?

Do I need to do anything differently to protect my loved ones from infection?

How do I talk to my friends or family about what I am going through?

Your Care Plan

How often will I need to have appointments now that I have active CMV?

How long will I take medicines for CMV?

Why am I changing medications?

Not all of these questions will apply to your situation, and **you may think of other questions you may want to ask.**

IMPORTANT SAFETY INFORMATION (con't)

Tell your healthcare provider about all of the medicines you take, including prescription and over-the-counter medicines, vitamins and herbal supplements. LIVTENCITY may affect the way other medicines work, and other medicines may affect how LIVTENCITY works and cause serious side effects.

Please see additional safety information throughout, click for [Information for Patients](#), and discuss with your HCP.

Share your thoughts and feelings

Having frequent and honest discussions with your transplant team may help you work through your experience and feelings after transplant.

Remember—your mental health is just as important as your physical health, and these discussions matter.

Questions about LIVTENCITY™ (maribavir)

What to expect

- What is LIVTENCITY? Why has it been prescribed to me?
- How is LIVTENCITY different from other CMV treatments?
- How do I take LIVTENCITY?
- Are there things I should avoid when taking LIVTENCITY?
- Are there any side effects I should look out for when taking LIVTENCITY?
- How will we know if LIVTENCITY is working?

Access & Support

- Who can I talk to about financial help for LIVTENCITY?
- Are there any other places where I can find information about LIVTENCITY?
